

Wide-Format Printing

All the advantages of digital production on a larger scale

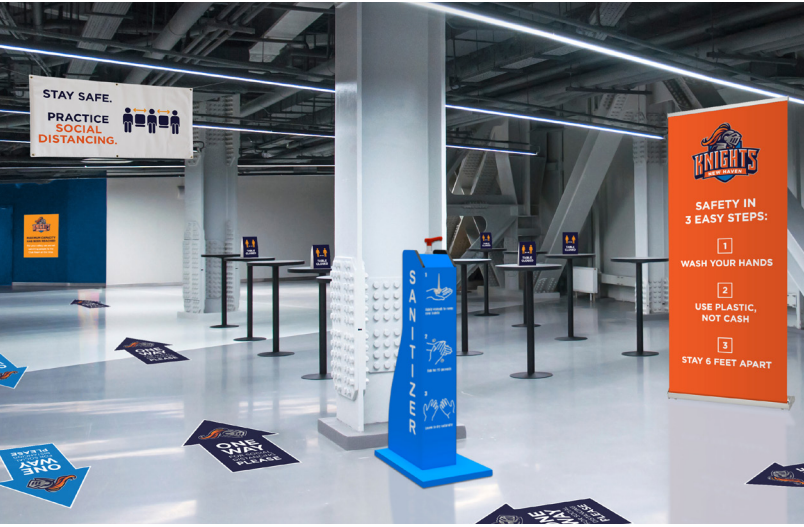

Taylor's industry-leading digital print-on-demand (POD) technology offers many advantages. It allows us to cost-effectively deliver high-quality printed materials in short- to medium-run quantities. We can turn print jobs quickly and get you to market faster. You gain the flexibility of printing multiple versions and can add data-driven personalization to individual pieces.

Taylor's POD technology also offers the advantage of size. Using our state-of-the-art digital presses, we have the ability to produce pieces up to 100 inches wide with stunning clarity and detail.

Capabilities

- Commercial-grade digital color and monochromatic
- G7® Certified color reproduction
- In-house finishing including mounting and laminating
- Maximum print dimensions of up to 100" wide by hundreds of feet in length *
- Multiple substrate options to choose from
- Nationwide production and warehouse network
- Specializing in fast-turn, small to medium sized jobs
- Turnkey kitting and fulfillment services

* Maximum length dependent upon size of roll available

Wide-Format Applications

- Banners and posters
- Indoor and outdoor signage
- Wall, window and floor graphics
- Yard signs

Taylor Print-On-Demand
