HEALTHCARE

WRISTBANDS AND LABELS CATALOG

Improving patient care while reducing costs

Labeled with Care

Taylor Healthcare offers an extensive line of wristbands and labels that help improve patient care, reduce costs, enhance operational efficiencies and expand information access across the healthcare continuum.

Over 100 Years of Healthcare Experience

We offer a full range of quality patient identification solutions tailored to the healthcare environment. Led by our seasoned healthcare specialists, we address your immediate needs for traditional labels and wristbands while helping you migrate to technology solutions that integrate barcodes, patient photos, and demographics. This enables you to:

- Establish positive patient identification from admission through discharge
- Assure patient comfort and safety
- Achieve Joint Commission National Patient Safety Goals
- Comply with HIPAA requirements
- Improve the efficiency of your admissions and clinical staff

Streamlined Sourcing for Patient ID

Identifying patients and tracking visitors in your hospital has never been more important. Yet ensuring you have what you need at a price you can afford can be a real headache.

Did you know that a typical hospital purchases hundreds of label and wristband products from as many as 50 different suppliers? We've found that hospitals can save up to 20% of their label spend — while improving workflow and safety — with Taylor Healthcare's Patient ID streamlined sourcing program.

Taylor Healthcare has an easy way to assess your complete inventory of labels and wristbands, then find opportunities for standardization and savings. Our proven process allows us to cross-reference the majority of your labels without requiring samples.

Best of all, your staff can order labels and wristbands from the same online ordering portal you use today for clinical forms, CMS forms, prescription pads, stationery and marketing materials.

JCAHO #1 Patient Safety Goal:

Improve the accuracy of patient identification by establishing positive patient identification from point of admission through discharge.

What goals are most important to you?

- Enhance patient safety
- Minimize overall costs
- Free up staff time
- Avoid stock-outs
- Consolidate vendors
- Standardize processes
- Reduce communication errors
- Drive patient satisfaction

Streamlining how you source labels and wristbands can help achieve all of these goals.

National Patient Safety Goals

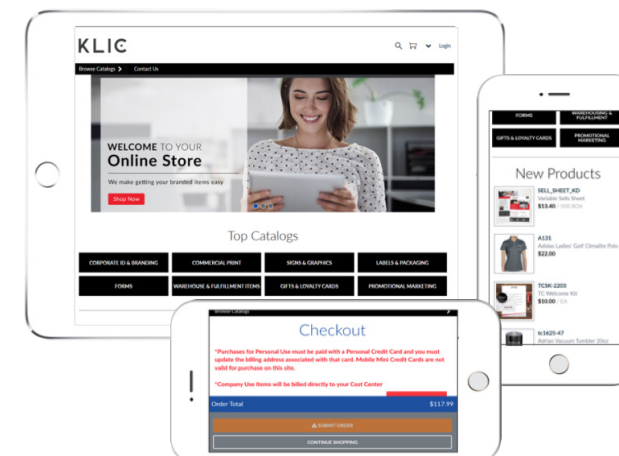

Taylor Healthcare's positive patient identification program will help you achieve your most important Joint Commission National Patient Safety Goals including:

- Goal 1:** Identify patients correctly
- Goal 2:** Improve staff communication
- Goal 3:** Use medicines safely
- Goal 4:** Identify patient safety risks
- Goal 5:** Prevent mistakes in surgery

E-Commerce Ordering Platform

Taylor Healthcare's web-based commerce platform provides a central point of access for healthcare organizations to quickly create and order the latest fully compliant information. Our turnkey healthcare procurement technology supports a variety of materials — everything from clinical forms, CMS forms, prescription pads, business cards and stationery to wristbands, labels, marketing materials and promotional products.

Materials can also be converted to variable print items that allow for robust personalization while preserving and protecting brand consistency. Our e-commerce platform provides instant access to inventory management reports on your desktop. Use it to manage your total patient identification spend, standardize your labels and wristbands, and reduce your costs.

Partner with Taylor Healthcare

We are proud to partner with the country's leading group purchasing organizations (GPOs) to provide outstanding solutions at exceptional prices. Taylor Healthcare is a preferred partner for the top GPOs in healthcare. Through the years, we have saved millions of dollars by focusing on cost management, standardization and process improvement.

Partnering with Taylor Healthcare for print management programs ensures:

- A healthcare-focused team dedicated to your success
- Guaranteed savings
- Consulting services to optimize your spend
- A collaborative relationship with a partner vested in helping achieve your goals
- Enhanced patient safety, a better patient experience, engaged patients and a stronger brand

Admissions

Laser Wristbands: Adult

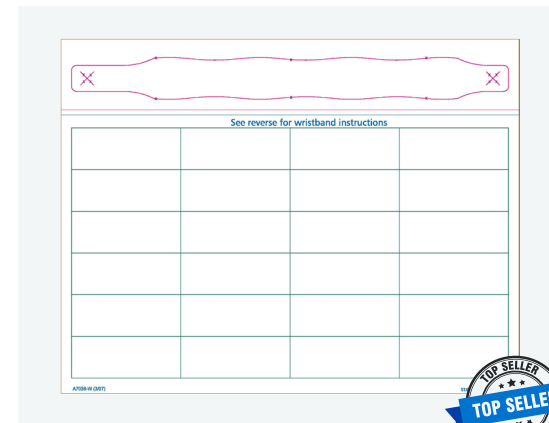

Taylor Healthcare's polyester wristbands are soft and easy to apply. The wavy edge on these bands reduce scratching, and contour to the wrist for a comfortable fit.

Direct Color Wristbands

Improve patient safety, reduce costs, streamline processes

How it Works

1. Admissions HIS sends data feed or HL7 ADT messages to Taylor Healthcare's EPS server for processing wristbands.
2. The EPS server software transforms the data, processes color and routing logic, renders and sends output to color inkjet label printers.
3. The printers produce crisp, vibrant color labels that won't fade, run or smudge.

Benefits

Important indicators are printed on-demand to automate workflow, reduce errors and improve patient safety. Consolidation of multiple alerts on a single band reduces costs. Full-color patient photographs enable positive patient identification. A variety of wristband sizes are available to support different applications. Numerous barcode formats and durable images improve scanner read rates. Hierarchical data layout makes the design user-friendly for the caregiver. Automated printer routing creates a seamless user experience.

Sample Output

Adult Wristband

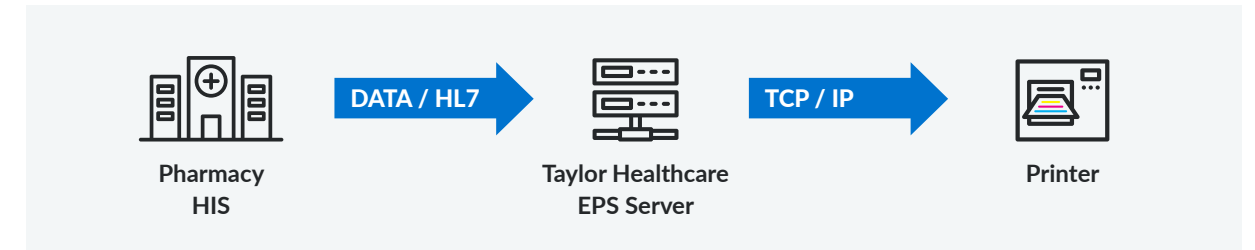

- Positive patient ID with optional full-color patient photograph
- Crisp, vibrant colors that won't fade, run or smudge
- Variable color to highlight patient alerts
- Soft, flexible materials that are latex- and PVC-free to ensure patient comfort
- Multiple 2D barcodes that scan at any angle – eliminating the need to reposition the patient's wrist for scanning
- Confidential alert indicators for MRSA, VRE, C. diff, etc.
- Clasp-free closure option for improved patient comfort

Pediatric Wristband

- Multiple 2D barcodes that scan at any angle – eliminating the need to reposition the patient's wrist for scanning
- Variable color to highlight patient alerts

Color Pharmacy Labels on Demand

Improve patient safety, reduce errors, streamline processes

How it Works

1. Pharmacy HIS sends data feed or HL7 RDS messages to Taylor Healthcare's EPS server for processing pharmacy labels.
2. EPS server software transforms the data; processes color and routing logic, renders output and securely sends to color inkjet label printers.
3. The color printers produce crisp, vibrant color labels that won't fade, run or smudge.
4. Internal cutter allows optional cut-to-size functionality.

Benefits

Automated printer routing ensures accuracy and pediatric/adult color-coding reduces medication administration errors. Color STAT indicator speeds identification for priority processing. Color Alert/Special Handling indicators automate workflow, reduce labeling errors and reduce costs. "Roll up" logic eliminates unused white space and reduces label size, lowering stock costs. Cut-to-size logic reduces label stock usage and costs. Fully implemented TallMan lettering improves patient safety for look-alike drugs.

Sample Output

- Easily differentiate between pediatric and adult patients
- Eliminate manual auxiliary label processes for special handling conditions
- Colorfast, smudge-proof labels
- Highlight critical information
- Reinforce alerts and warnings including STAT, high risk, chemo

Check-In at Home

Solution Overview

Check-In at Home extends your patient registration capabilities by allowing patients to complete and sign required pre-care documents on their own device in the comfort of their own home.

Features

- Patient complete forms from anywhere convenient
- Can be interfaced with single-sign-on-providers
- Electronic signing capabilities
- Integration with your existing patient portal
- Multi-language support

Benefits

- Less time spent on manual follow-up
- Higher patient satisfaction
- Increase operational efficiency
- More efficient billing and documentation

Downtime Contingency

Solution Overview

Downtime Contingency maintains your business continuity by enabling you to generate forms and labels with patient demographic information and bar codes while the EHR or network is down.

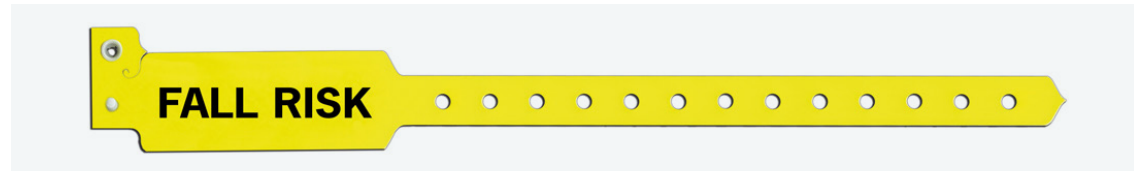

Features

- Print admissions packets (including forms, barcodes, and labels) while system is down
- Access patient data records during downtime
- Patient information is simultaneously populated onto all other relevant forms once entered
- Patient data collected during downtime is automatically sent to ADT once system is operational
- System retains patient records for up to 6 months

Benefits

- Business Continuity
- Enhanced patient safety
- Increased operational efficiency
- Ensure compliance
- Reduce errors associated with manual processes
- More efficient billing and documentation

RFID Wristbands

Taylor Healthcare delivers innovative patient wristband and workflow solution

Challenge

For a major Northeast U.S. healthcare system, driving a better patient experience meant introducing state-of-the-art technology into the patient identification process. It was determined that radio-frequency identification (RFID) wristbands would be a perfect fit for their new treatment facility. As a long-standing partner to the client, Taylor Healthcare was well positioned to implement and support the RFID wristband program.

Solution

The Taylor Healthcare team worked closely with hospital personnel to architect the workflow, configure the RFID printers and test wristbands. When complete, the client asked Taylor to establish a process to preprint the RFID wristbands and mail them to patients prior to their scheduled procedure.

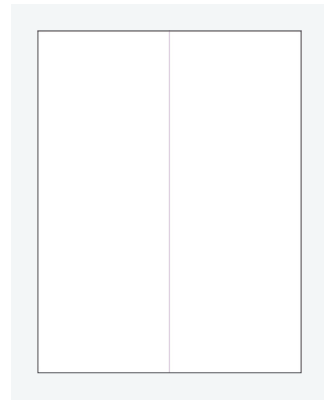

RFID-enabled patient wristbands are now delivered to patients' homes prior to their medical procedure, packaged with instructions for the check-in process. Patients are instructed to wear the RFID wristband and arrive at a specific hospital entrance equipped with sensors to detect and read the information contained on the wristband. Upon arrival, the clinical system is notified and any printed materials are generated to the assigned operating suite. The patient can simply walk in, head to the assigned suite and have everything ready to go.

Results

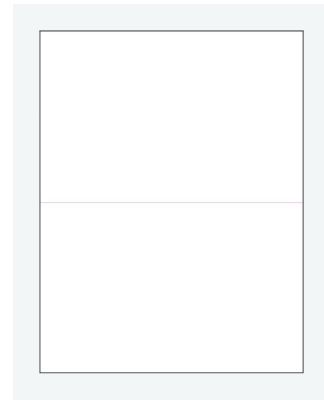

The healthcare system delivered an improved patient experience with Taylor Healthcare's innovative RFID wristband solution.

- A new standard: For the healthcare industry, RFID technology represents a new level of patient care.
- Patient engagement: The wristband is an immediate positive interaction at the start of the care process.
- Trusted partner: Taylor Healthcare enhanced its relationship with a valued print and technology client.

Wayfinding Signage 36

Wayfinding Signage

Ensure simple and stress-free navigation of your facilities.

The patient experience is much more than the treatment provided by your medical staff. When patients come to a healthcare facility, they already expect to receive quality care. Ensuring an outstanding patient experience is dependent on how easy it is for patients, as well as visitors, to effectively engage with your services. Signage plays a critical role in meeting that objective.

Lab Specimen Bags

Laboratory work involves the collection of various types of specimens, including biohazards, which require a high degree of accountability. At Taylor Healthcare, we offer a variety of specimen bags that help our customers improve communication and safety within the lab.

Product Features

- Strong zipper closure keeps contents secure and prevents spillage.
- Clear film is leak-proof and allows contents to be visible.
- External pocket keeps patient information secure and separate from bag's contents.
- Printed with biohazard logo that meets OSHA and other industry specifications.
- White area allows for handwritten notes and instructions.
- Bags can be customized to your exact specifications — logos, sizes and printed messages.

Lab Benefits

- Improve lab safety and communication.
- Keep lab organized and reduce risk of lost specimens.
- Add to your current SMARTworks® account for simple online ordering and tracking.

PATIENT EXPERIENCE

- Solutions 78
- Discharge Folders 79
- Sleep Kits 81

Solutions

The Beryl Institute defines the patient experience as “the sum of all interactions, shaped by an organization’s culture, that influence patient perceptions across the continuum of care.”

Taylor Healthcare’s patient experience products and kits are designed to enhance each patient interaction. From admissions to discharge, give your patients a reason to rate your organization high on HCAHPS surveys. Consider what we can do to promote a positive patient experience:

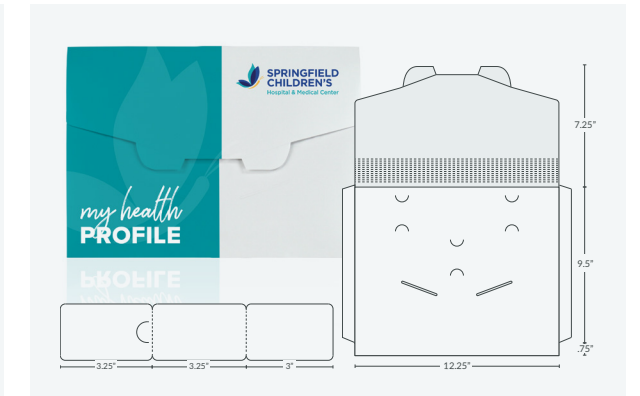

- Discharge folders
- Sleep kits

Discharge Folders

Maverick

- Expandable portfolio folder
- Size: 10.25" x 13"
- Folder holds 75 to 100 sheets
- Stock types available:
 - 14pt. C1S
 - 100lb. Cougar Smooth

Maverick XL

- Expandable portfolio with tab option
- Size: 12.25" x 9.5"; side/bottom expansion: 1.5"
- Stock: 12pt. C1S with aqueous coating
- Option tabs: 80lb. White Smooth

Belgrade

- Standard two-pocket folder
- Size: 9" x 12"
- Folder holds 20 to 25 sheets per pocket
- Stock types available:
 - 14pt. C1S
 - 100lb. Cougar Smooth

First Class

- Spiral-bound multi-pocket folder
- Three standard folders (with six total pockets) enclosed between a cover and a backer
- Size: 9.375" x 11.5"
- Folder holds 20 to 25 sheets per pocket
- Stock: 10pt. C1S only

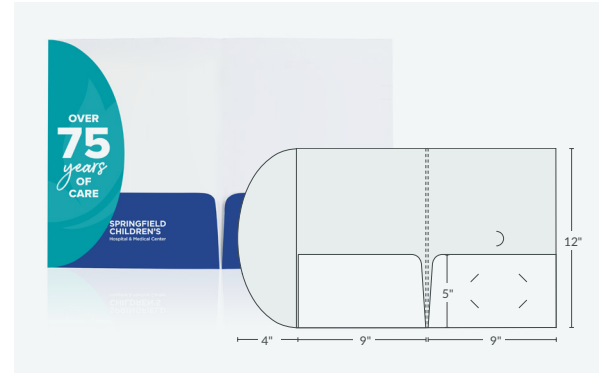

Discharge Folders

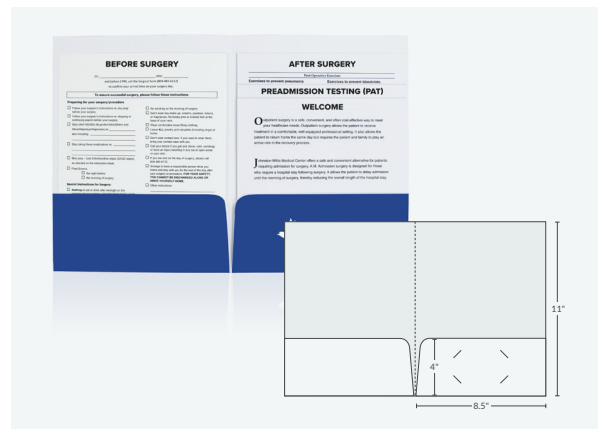

Dino

- Three-panel pocket folder
- Size: 9" x 12"
- Folder holds 20 to 25 sheets per pocket
- Stock types available:
 - 14pt. C1S
 - 100lb. Cougar Smooth

Circle

- Two-pocket folder with third panel tuck-in flap
- Size: 9" x 12"
- Folder holds 20 to 25 sheets per pocket
- Stock types available:
 - 14pt. C1S
 - 100lb. Cougar Smooth

Stepped Insert

- Inserts available with standard-style folder
- Collated inserts placed in right pocket of folder
- Size: 8.5" x 11"
- Stock: 100lb. White Gloss Text

Stitched Insert

- Only available with standard-style folder
- Printed on both sides in 4-color process
- Size: 8.5" x 11"
- Stock: 100lb. White Gloss Text

Sleep Kits

Sleep Kits at New England Hospital

Challenge

An almost 400-bed New England-area hospital was receiving patient and family complaints about noise on patient floors. The noise negatively impacted recovery and ultimately patient satisfaction and HCAHPS scores.

Solution

Taylor Healthcare worked with the directors of patient experience and corporate contracting to develop a solution to help patients sleep better while in the hospital – a sleep kit that includes: a zip pouch, a welcome card printed in English and Spanish, ear plugs, a sleep mask and headphones. Additionally, Taylor Healthcare and staff did extensive sampling and testing to ensure bed control system compatibility.

Results

The kits have been well received. They have been ordered multiple times and are used on all inpatient floors.

05

EMPLOYEE ENGAGEMENT

- Solutions 84
- Uniforms* 85
- Recognition and Awards* 86
- Apparel* 87

Solutions

To be a well-respected hospital or health system, you have to a best-in-class team of doctors and nurses. One way to recruit and retain these important members of your organization is through the use of promotional products. Consider giving a prospective nurse a pen from your hospital, or a new doctor a branded lab coat. Taylor Healthcare has the items to help you recruit and retain the individuals that keep your organization running:

- Uniforms
- Recognition and awards
- Apparel

Uniforms

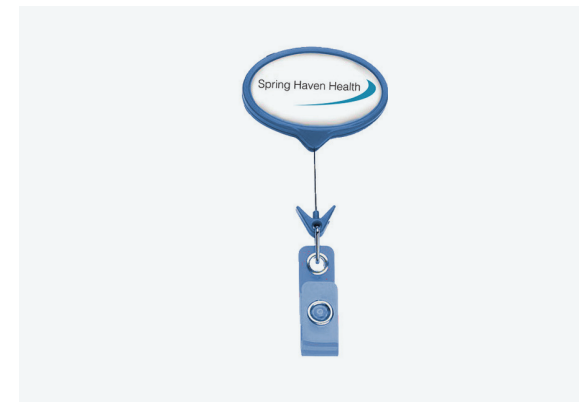

You want your healthcare brand to be well recognized by your surrounding community and one way to do it is through our suite of brand management promotional products and apparel. From uniforms and apparel to rebranding rollouts, Taylor Healthcare has clever ideas for healthcare-specific promotional items and programs that engage patients and staff, while differentiating the brand. Consider these types of items to promote your brand:

Custom Uniforms

Custom Scrubs

Badge Reel

Stethoscope Clip

Recognition and Awards

Health System Pins

Challenge

A New England-area health system wanted to honor employees with significant service anniversaries with a special gift that represented the brand. The health system's existing vendor did not have any local representatives who could work with system staff to develop a fresh approach.

Solution

Taylor Healthcare's national sales network means that our customers have a real person to work with. Our dedicated healthcare representatives know the marketplace and provide a consultative approach — working with our customers to provide the best and most cost-effective solutions to marketing needs.

Results

Taylor Healthcare worked with the health system to provide branded, die-struck iron and enamel pins with a deluxe clutch for between 300-500 employees annually. The pins, which arrive in a plastic presentation box, generally are pinned to the system employee's badge to highlight their years of service and reinforce brand.

Apparel

Jackets

Challenge

An East Coast hospital wanted to provide jackets to more than 6,000 employees to thank them for their service.

Solution

Taylor Healthcare worked with the supply chain department to identify and price the jackets and then provided on-site project management for the jackets. To ensure proper sizing, Taylor Healthcare staff fitted more than 6,000 employees for jackets during 20 fitting events held at more than a dozen locations. Taylor employees scheduled the fittings to accommodate every shift and department.

Results

More than 6,000 employees showcase the health system's brand all over the region. The jackets were so well received by employees, Taylor Healthcare created a storefront so employees can buy system apparel. The system's marketing team also created a contest to take photos of the jackets in special places. The marketing department received photos from all over the country and published them in their internal newsletter.

We Can Be Your Total Resource

At Taylor Healthcare, we can be your total resource for healthcare labels and wristbands. Listed on the next two pages is a selection of products that we carry that are not pictured in this best-sellers catalog. For assistance, consult your Taylor Healthcare sales representative, a customer service sales representative at 877.733.3552 or the SMARTworks® platform at your desktop.
