

# Prudential Center

## Fast turnaround on a mass scale

Bergen Sign Company reached out to Taylor to partner on an urgent request. Could we create a 54' x 94' banner for the side of Prudential Center – and turn it around in only six days?

Thanks to Taylor's state-of-the-art large-format printing and RF welding technology, we could. Six massive panels of 13 oz. vinyl were printed and welded together in record time at our new facility on the Hudson.

LARGE-FORMAT PRINTING | RF WELDING
